

NW/VS/Spring2/March2018

Dear Parent/Carers

As we reach the end of a very short term the staff are busily working away supporting learning and preparing the children for their coming exams in primary and secondary.

To help your child prepare please ensure:

1. They get plenty of sleep – 8-9 hours is good
2. Plenty of water to drink
3. 3 good meals a day. Breakfast is a vital meal
4. Time, in a quiet environment to prepare to an exam timetable
5. Your attention and a friendly chat each day.

These 5 simple things will help your child do their very best in the exams.

As the weather warms up, he says, can we ensure that children are in full school uniform with a bag and equipment for school. Can I remind parents that facial piercings are not allowed.

We have had an incident at the end of the school day where a parent has driven onto the pavement and bumped a child, then a resident's wall. Our children's safety is so important. Please consider this when you back onto the pavements or park on the footpath.

Finally, we return to school after Easter on Monday 9th April 2018. This will be a very busy term for all students with lots going on. Please keep in touch using the school website or via our texts and messages to you. If you are not receiving these messages currently we do not have the correct contact details for you.

Have a good and well rested Easter holiday!

Yours faithfully

Mr Neil Wilkinson
Executive Headteacher
