

# ANIMAL CRUELTY

The shocking amount of animal cruelty every day is just the tip of the iceberg as most cases of animal abuse are not reported. Animal cruelty can be either deliberate abuse or simply the failure to take care of these innocent creatures. Either way, whether it's a pet or a farm animal or wild life it is still animal cruelty.

Animals such as cats and dogs are on the streets unlike our pet cats/dogs these homeless pets cannot be able to access the food and water that they need to survive. All because people can't look after animals.

Cruelty to animals is also called, animal abuse, animal neglect or animal cruelty, it is the inflection by people of

suffering or harm upon any animal.

In order to get chimpanzees to perform, trainers often beat them into submission; that is no way to treat animals, through violence and fear. With computer generated images already available, the use of live animals in front of the camera should end. It's hard to imagine anyone being so cruel as to viciously beat a young animal with pipes and broom handles for the sole purpose of making that animal perform tricks for a movie.
